PROJECTS

Astro Weight Calculator

[Visit Site](#) [View Code](#)

This project was part of my training at Creating Coding Careers. It reinforced my knowledge of JavaScript as I approached this project from a different perspective. It gave me exposure to HTML and CSS.

Super Sonic Gym

[Visit Site & Code](#)

I utilized the knowledge I gained from my bootstrap course to create this project. It is a single-page website created with HTML5, CSS3, JavaScript, and Bootstrap.
