Education

California State University San Marcos
Computer Science B.S., expected graduation 2026   2026
Nucamp Coding Boot Camp
Certificate of Completion, Full Stack Web and Mobile Development   2021
San Diego Mesa College
Associate's Degree in Computer and Information Science   2018

Work Experience

Pathways Consulting Group   Remote
Development Consultant   Sept 2022 - Present
- Execute unit, system, and end-to-end testing to ensure product viability and minimize technical debt
- Enhance platform functionality through development of custom scripts, business rules, and automated workflow
- Implement and configure Service Portal for a user-friendly interface based on client requirements
- Collaborate with cross-functional team members to develop functional requirements to deliver tailored ServiceNow solutions
- Collaborate with cross-functional teams in Agile development cycles, contributing to sprint planning, backlog refinement, daily stand-ups, and sprint reviews.

G{code}   Remote
Coding Facilitator   Apr 2023 - Jul 2024
- Provided effective and engaging instruction on programming languages such as HTML, CSS, and JavaScript
- Offered individualized support to students through code reviews, debugging sessions, and mentorship
- Fostered a collaborative and inclusive virtual classroom environment to encourage active participation and peer learning
- Coordinated with colleagues to continuously improve course content and enhance the overall quality of the coding program
- Delivered a comprehensive coding curriculum that covers relevant programming languages, software development concepts, and industry best practices to students at various skill levels

Creating Coding Careers   San Diego, CA
Software Developer Apprentice   Nov 2021 - Sept 2022
- Collaborated with other aspiring developers to solve coding challenges
- Utilized various technologies such as ReactJS, NodeJs, Express, and REST to complete projects
- Applied front-end and back-end technologies for various project developments

Skills

Programming Languages:	JavaScript, Python, C++, HTML5, CSS3, Java, Nodejs, JSON
Frameworks / Libraries:	Bootstrap, React, React Native, MongoDB, JQuery
Tools / Databases:	Visual Studio Code, Git, GitHub, Postman, Docker, MySQL, PostgreSQL
Skills:	Agile Development, Now Platform

Project

Loader App - [View Live App]
Technologies used: *Javascript, HTML, CSS*

- Developed an interactive web application to assist weightlifters in calculating the weight plates required to reach a target weight.
- Implemented functionality for seamless conversion between kilograms and pounds to accommodate diverse weightlifting standards.
- Enhanced user experience by adding a feature to calculate the current bar weight using clickable weight icons, meeting real-world usability needs.
- Designed with a responsive and intuitive interface, ensuring accessibility across devices.

Certifications

- ServiceNow Certified System Administrator (CSA)
- ServiceNow Certified Application Developer (CAD)
- ServiceNow Certified Implementation Specialist - Human Resources (CIS-HR)
- ServiceNow Certified Implementation Specialist - Risk & Compliance (CIS-RC)
